BUDGET CHIEF TASK OF EPISCOPALISMS

Bishop Brent's Convention Sermon Emphasizes Labor Problem.

By the Associated Press.

DETROIT, Mich., October 9.—Facing a program of unusual weight in preparing the budget for the maintenance of present church activities and extending work of the church the next three years, the forty-fourth triennial convention of the Protestant Episcopal Church completed its organization yesterday afternoon. Bishop Thomas F. Gailor of Tennessee was again named chairman of the house of bishops, and the house of deputies elected Dr. Alexander Mann of Trinity Church, Boston.

A radical departure from precedent was taken by the upper legislative body of the church when it decided to hold open sessions.

Capital and Labor.

The convention was opened in the morning. Bishop Charles H. Brent of western New York striking the keynote of the meeting in the convention sermon. Bishop Brent, formerly chaplain of the American expeditionary forces, declared the church must take a leading part in the settlement of differences between capital and labor. "We will fear with good reason," he said, "the red menace of revolution or the violent displacement of an old by a new order. We will review the history of such upheavals, their explanation is usually found in the refusal to heed appeal for that, which retrospect reveals to be the common justice. It is quite as much dead conservatism as ignorant radicalism which we have to fear in this crisis of industrial history."

Pageant on Program.

The service was preceded by a solemn celebration of the holy communion for the 500 bishops and other delegates, followed by a pageant in which marched the American, Canadian and Oriental bishops, headed by the cross and the flag of the church and the nation. A prominent figure in the procession was Metropolitan Platon of the Russian Church, Archbishop of Kherson and Odessa, and acting Archbishop of Kiev. Confirmation of the election of Rt. Rev. Charles Sumner Burch as bishop of New York, made by the house of deputies yesterday afternoon, is expected to be consummated in the house of bishops.

Adopting resolutions of sympathy with President Wilson in his illness, the house of deputies expressed the hope of the convention for his speedy recovery.

ASKS AID OF SCHOOLS FOR EDITH CAVELL MEMORIAL

Mrs. Susie Root Rhodes Directs Attention to the Campaign

for Hospital Fund.

Mrs. Susie Root Rhodes has sent a letter to the superintendent of schools outlining the Edith Cavell Memorial Hospital fund, a nation-wide campaign to perpetuate the memory of the heroic nurse who was executed by the Germans and urging co-operation of public school children in the movement. Mrs. Rhodes asked that the children be allowed to contribute to the fund, the subscription from each child to be limited to 10 cents. High schools and private schools also will be asked to help.

Parts of Mrs. Rhodes' letter follow:

"A fund is being raised in the allied countries to erect an international hospital as a memorial to Edith Cavell and her fellow nurses and patriots, who gave their lives in the cause of humanity and liberty during the great war. Under the high patronage of the King of the Belgians an international committee was secured to raise funds. It is the intention of the committee, which is being aided by the British War Relief Society, to present the fund to the Government of the Belgians on their visit to Washington late in October, and to give her at the same time a book inscribed with the names of the donors to the fund."

HARVARD FUND DRIVE CLOSES HERE TONIGHT

Rally at University Club Will Be Featured by Addresses and Report.

WALTER R. TUCKERMAN, Chairman Washington executive committee, Harvard fund drive.

The local campaign to aid in the raising of a \$15,000,000 endowment fund for Harvard University will be brought to a close at a big rally to be held at 8 o'clock tonight at the University Club, under the auspices of the Harvard Club of Washington. All of the 42 Harvard men of Washington, regardless of whether they are members of the Harvard Club, have been invited to attend.

Final returns from the campaign, which has been in progress a week, will be made at the meeting. It is expected that the total will reach the coveted goal of \$100,000. The total this morning stood at \$64,000. Charles V. Inlay has charge of arrangements for the meeting tonight. The speakers will be Dr. Charles W. Eliot, president emeritus of Harvard University; Dean La Baron R. Briggs, '75; Eliot Wadsworth of New York, '98, chairman of the national endowment fund campaign, and John W. Halliwell, assistant to the Secretary of the Interior and vice chairman of the local executive committee in the drive. Capt. Charles T. Tittman, law school, '08, will sing.

Walter R. Tuckerman, chairman of the local executive committee, and Mr. Halliwell attended a big rally last night in New York at which return from all sections of the country were reported. A report on the New York rally will be made by Mr. Halliwell.

On the basis of the District's quota in Red Cross and liberty loan drives the class Harvard quota would be about \$50,000, but as there is an unusually large number of Harvard men here, that \$100,000 would represent a fairer quota.

TEACHES DISABLED MEN.

Vocational Board Has Example in Case of Italian.

Teaching a disabled man to read and write may seem an unnecessary step in getting him a job; but it is a case where "the longest way round is the shortest way home." The federal board for vocational education treats disabled illiterates in exactly the same way that other disabled men are treated; they must fulfill the same requirements for eligibility as to service, disability and vocational training, before they are placed in training.

The benefits of this provision for those of our disabled boys who do not know the English language can be seen in the case of Giuseppe Marino. A laborer with no education before the war, speaking his native language, Italian, very well, but understanding no English, he was real suffering when the board found him and through an interpreter made him understand the opportunities offered by Uncle Sam.

The eagerness with which he grasped the offer was pathetic. He knew in a "try-out" course, learning English. He is the only support of his mother and his brother's children (his brother having been killed in the war), but the allowance made by the government while he is taking training relieves his mind of any worry concerning them. Those who know of this case feel that a man has really been saved.
